

Apple iPad 2: thanks Steve - again!

Steve (Jobs) strikes back -

twice!

The charismatic CEO does it again and presents the much-awaited **iPad 2**.

As expected, front and rear camera, thinner, lighter, same battery!

Unexpected: A5 dual-core processor - brand new, 9-times more powerful graphics capabilities; available in black and white (!).

Available by the end of March in the USA and worldwide at the same price of the first iPad lineup.
