

Facebook: one billion active users milestone - from Zuck's own words!

Just saw this on my Facebook timeline:

**Mark Zuckerberg**

This morning, there are more than one billion people using Facebook actively each month.

If you're reading this: thank you for giving me and my little team the honor of serving you.

Helping a billion people connect is amazing, humbling and by far the thing I am most proud of in my life.

I am committed to working every day to make Facebook better for you, and hopefully together one day we will be able to connect the rest of the world too.
