

I love this video (and coding as well).

*Truly inspiring.*

**Code.org** has put together several hi-tech VIPs (and some non-tech guys) in this video witnessing how much programming opens minds, gives logic and opportunity and... definitely it's fun!

Who is [Code.org](https://code.org)?

*Code.org is a non-profit devoted to the vision that every student in every school should have the opportunity to learn how to code. We believe computer programming should be part of the core curriculum in education, alongside other science and math courses such as biology, chemistry and algebra.*
